

7 June 2019

Dear Parents/Carers

Each term teachers set individual learning targets for their class. These targets are the next step of learning, maybe a target to learn or consolidate new knowledge or develop/increase a skill.

We aim to set targets which can be achieved over the term, but sometimes children may need more time and a target may be continued for another term.

Attached is a copy of your child's targets for terms 6. We hope that you find it helpful to have a more detailed understanding of what your child is learning in school and that this may link into activities or visits etc that happen out of school.

For some pupils the targets may look a little different to the targets you have previously received. As more of our pupils are transferring to an Education, Health and Care Plan we are changing the titles of our targets to match the headings of the EHCP targets, ie Learning, Communication, Social, Emotional and Mental Health, Physical and Independence. As your child transfers from a Statement of Special Educational Needs to an EHCP the titles of the targets you receive will change to reflect this.

If you have any questions about the targets, please contact your child's teacher.

Yours sincerely

Ed Bowen-Roberts
Headteacher
