

Baytree School Clevedon Campus

Parent and Carer engagement events

May 2023

Plan for the session

- ▶ Share progress of the build to date
- ▶ Learner involvement to date
- ▶ Operational planning to successfully open the Clevedon campus
- ▶ Rationale for who will attend which campus
- ▶ Planning transitions
- ▶ Next steps
- ▶ Opportunity for questions

Progress to date

Hydrotherapy
pool area

Main Hall

External area
including glazing

Construction progress

- ▶ Remain on track for completion in January 2024
- ▶ Planned to open to learners after the February 2024 half term

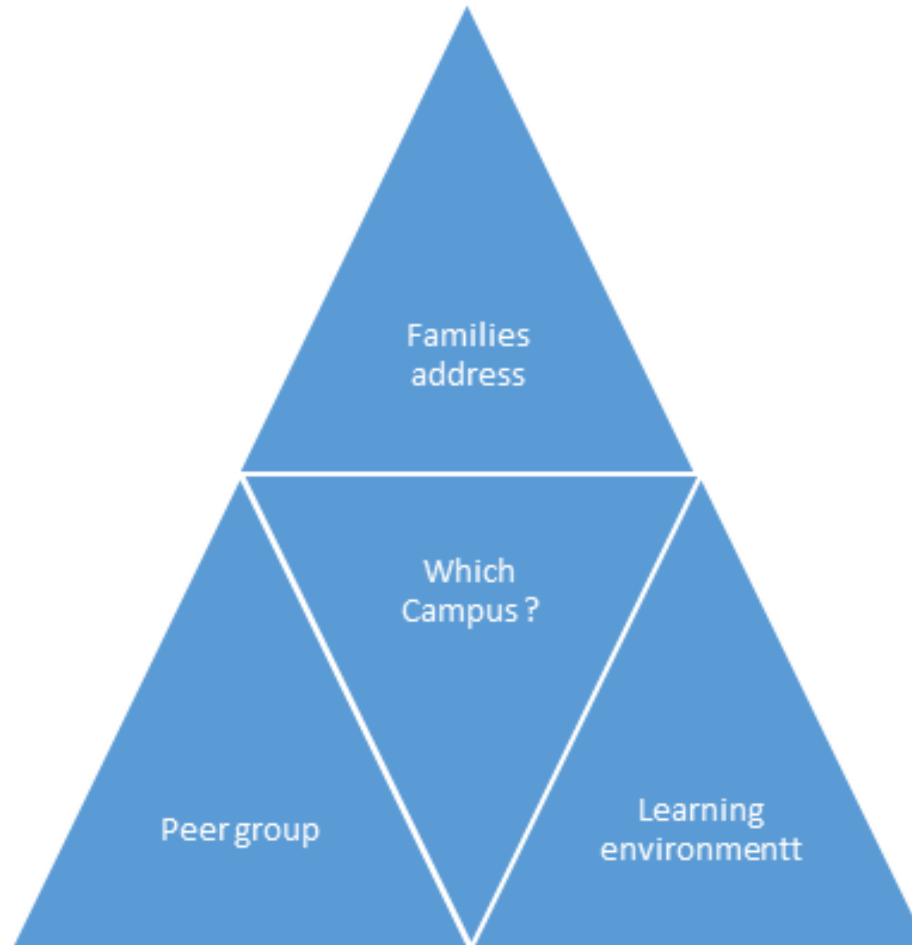

Learner involvement

Operational planning

- ▶ Pupil place planning - currently preparing for a September 2023 intake of new learners and then a further intake in February 2024.
- ▶ We are expecting 87 learners in September increasing to 95 in February.
- ▶ Recruitment - already recruited for a number of positions including:
 - Assistant Headteacher
 - Class teachers
 - Site manager - currently out to advert
 - Support staff - will be phased, appoint for September and again for January.

Understanding who will attend which campus?

Families address

- ▶ Our goal is for all learners to attend their local Baytree campus.
- ▶ This will ensure journey times are kept to a minimum
- ▶ Provide greater opportunities for parent and carer engagement
- ▶ Ease access to extra curricular learning opportunities including after schools clubs
- ▶ Develop a sense of community

The right peer group

- ▶ Learners will have the opportunity to access elements of their curriculum at each campus, however, ensuring all learners have an appropriate peer group to learn alongside and socialise with daily will be a key priority.

The right learning environment

- ▶ Ensure all learners have access to the right learning environment will be a priority.
- ▶ All learners needs will be able to met at either Baytree campus, however, there are benefits to both:
- ▶ Weston Campus- inclusion links with Herons' Moor, School flat, local amenities, specialist sensory spaces
- ▶ Clevedon Campus- one level, overhead tracking hoists, specialist sensory spaces

Planning to transition

- ▶ Using the criteria described senior leaders have provisionally planned which learner will attend which campus.
- ▶ Initially a small transition of learners in February 2024.
- ▶ A more significant transition in September 2024.
- ▶ All learners transitions will be planned and tailored as appropriate.

Although provisional plans are being explored, all decisions will be made in full consultation with the learner and their families.

Next steps

- ▶ Continue to input and support the development of the construction phase
- ▶ Ensure learners continue to be involved and input into the design of the building
- ▶ Contact families of learners who are identified to transition from the Weston Campus to the Clevedon Campus in February 2024
- ▶ Consider transition opportunities for February 2024
- ▶ Ensure we have made all the necessary arrangements to open the Clevedon Campus successfully.

Any questions?
